

# **Overwhelmed (A)**

## **Verse 1**

A                    E  
I am nothing yet you bid me  
Bm                    D  
Come to You, Oh Lord Almighty  
A                    E                    Bm  
As I come I'm overwhelmed with You

## **Verse 2**

Humbly now I break the silence  
As I'm weeping in Your presence  
I'm so wretched, overwhelmed with You

## **Pre-chorus**

                  E                    F#m                    D  
Your blood of redemption is covering my shame  
                  E                                    F#m                    D  
Your voice that shakes the heavens is whispering my name  
                  F#m                    E  
And as You catch my tears  
                  D                                    E  
In Your nail-scarred hands

## **Chorus**

                  F#m                    E                                    D                                    E  
I'm overwhelmed – I'm overwhelmed with You  
                  F#m                    E                                    D                                    E  
I'm overwhelmed – I'm overwhelmed with You
